## PRODUCT REVIEW

Heather S.  
Verified Buyer

**Love it!**

Beautiful paper and sleek design!

## PRODUCT REVIEW

Jacquelin L.

Verified Buyer

### **Beautiful & Functional**

This is such a beautiful notebook! The quality of the materials and the attention to detail are top-notch, and the innovative dot-grid/indent-mark design allow for a lot of creative possibilities for bullet journaling!

## PRODUCT REVIEW

Erin B.

Verified Buyer

**I am really enjoying this notebook.**

I love the color scheme! My favorite color is blue, so I was especially excited for this edition. The quality is easily felt and seen. Great job, Code & Quill!

## PRODUCT REVIEW

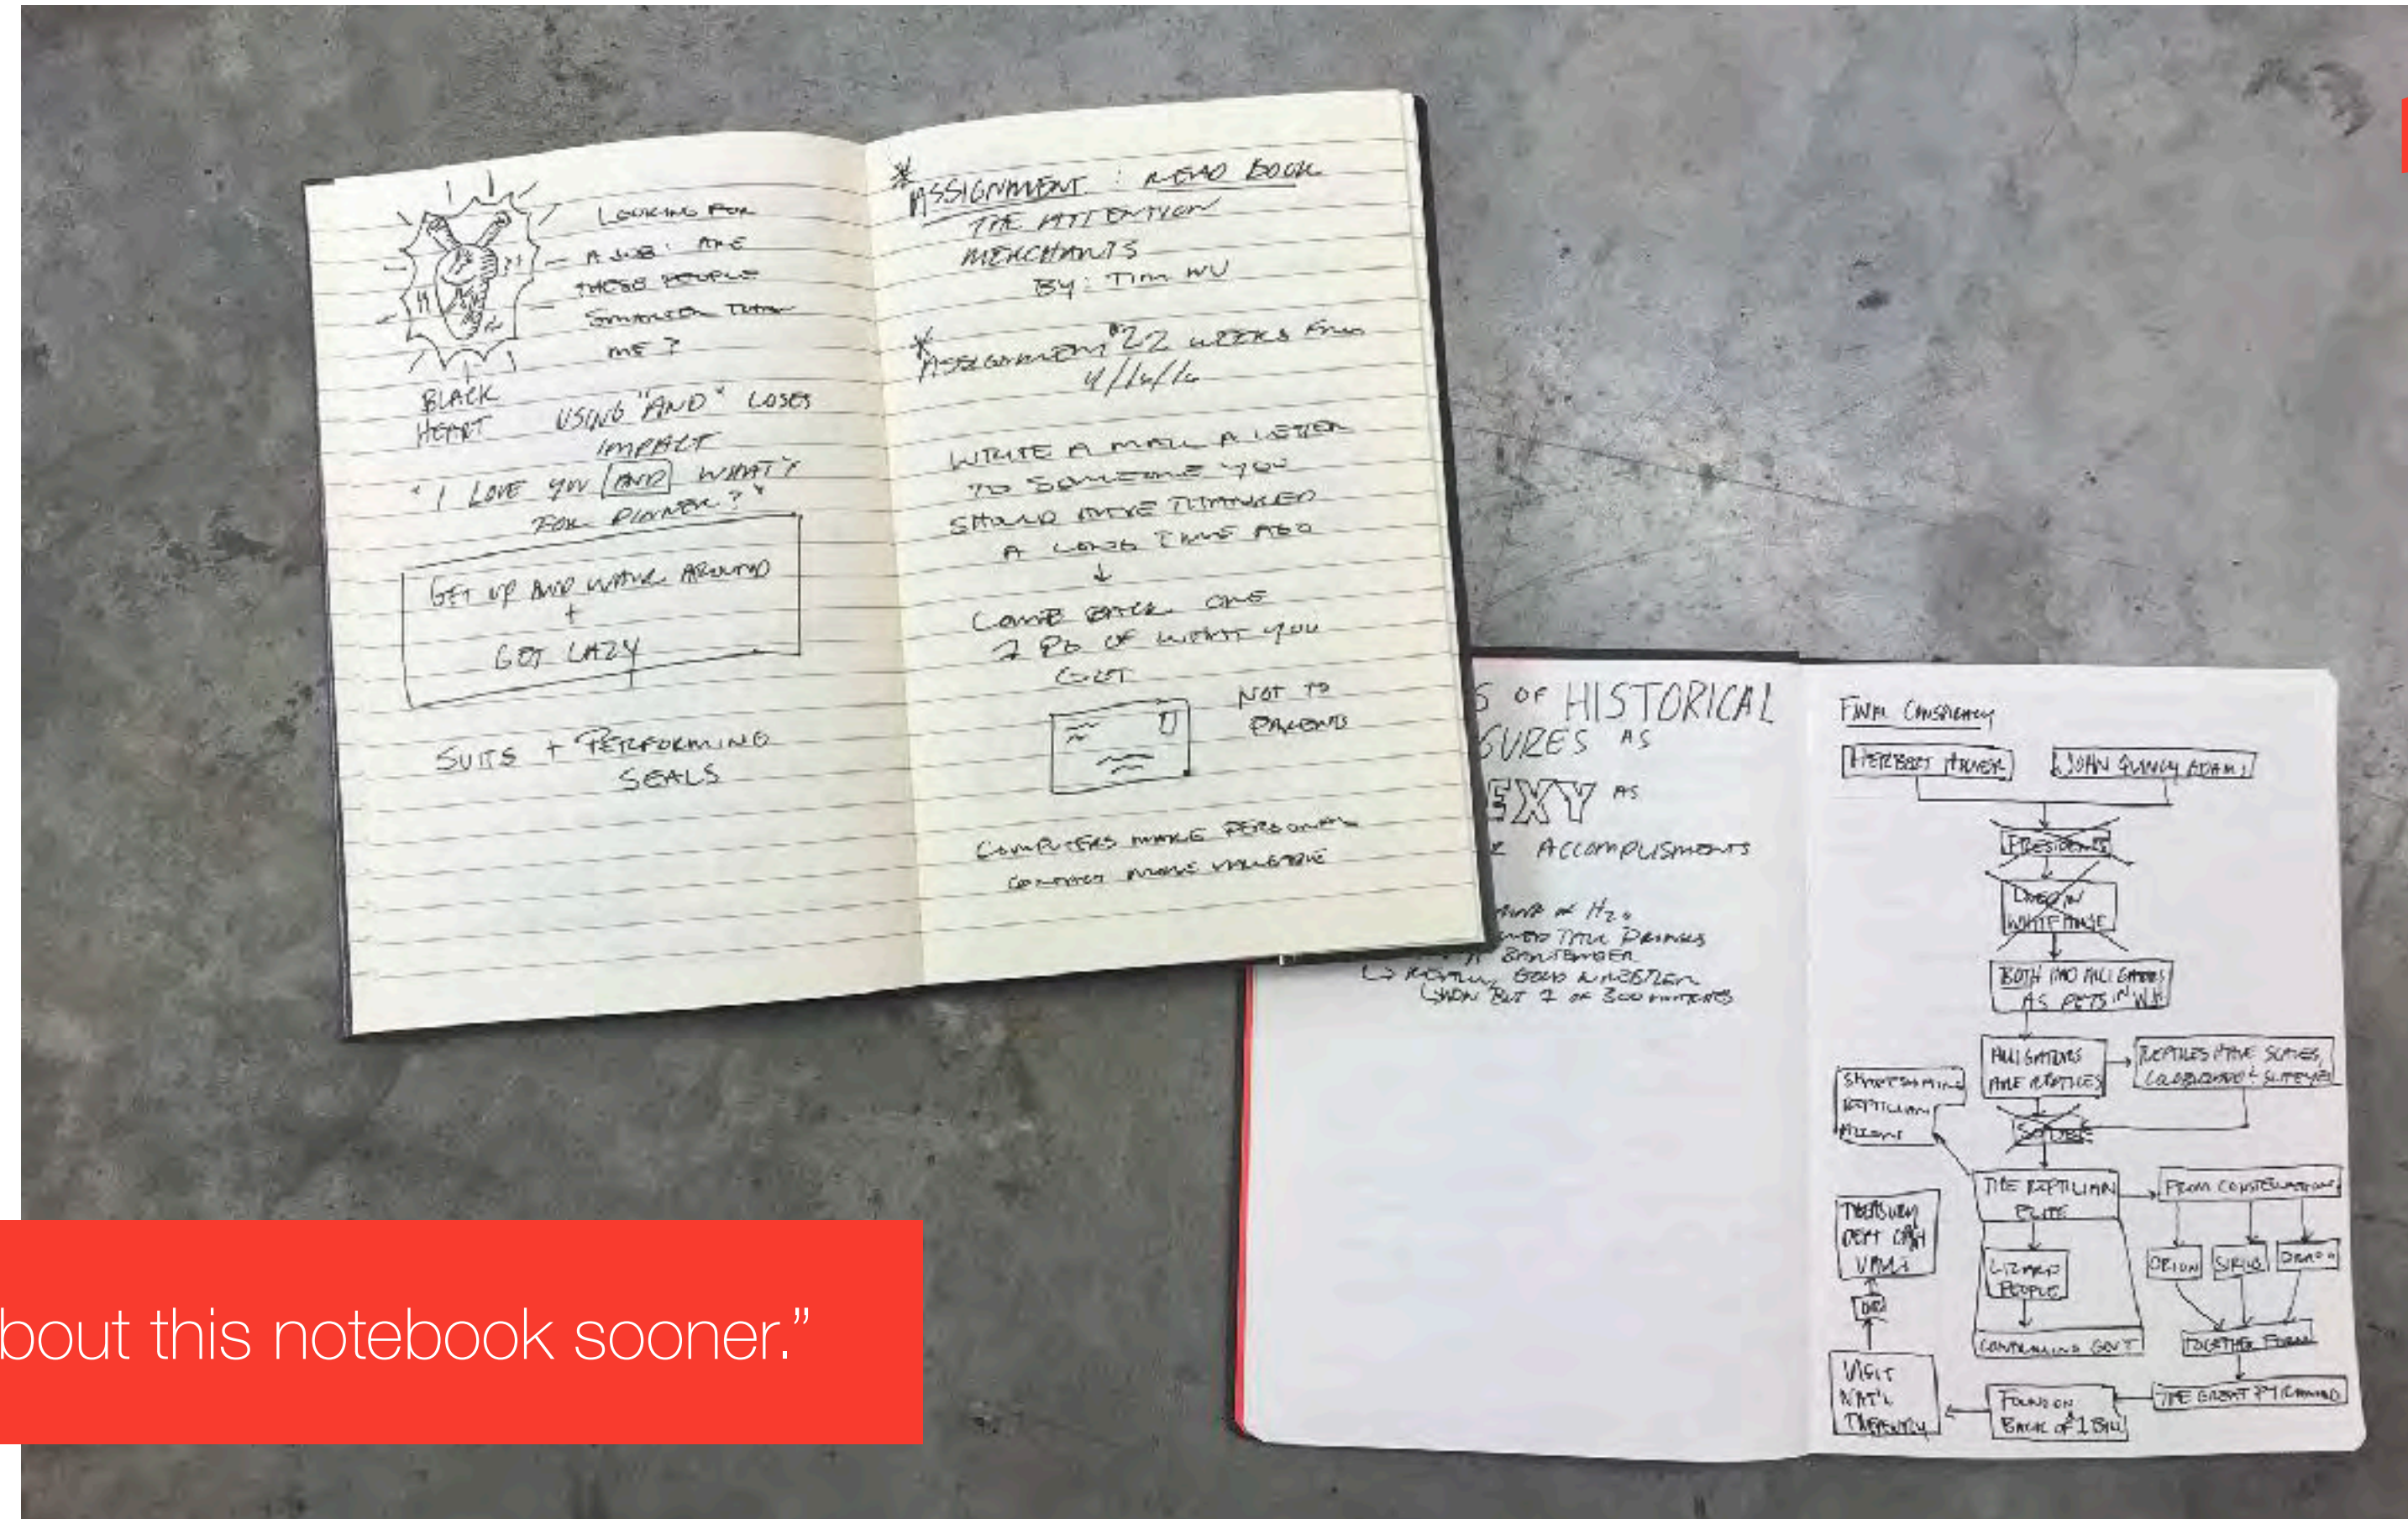

**Robin B.**

Verified Buyer

### **The Ravenclaw Version**

I'm not going to lie. I totally bought this notebook because it was Ravenclaw colors and I'm a big nerd like that---but I'm so glad I made this purchase! Code&Quill notebooks really are incredible. They arrive in a neat low-profile box (which perfectly protects your precious notebook from bending, scratching, and weather elements), its pages are crisp and weighted, and the cover is incredibly soft with a sleek design. The quality of their work means that this notebook is going to be with me for a LONG time!

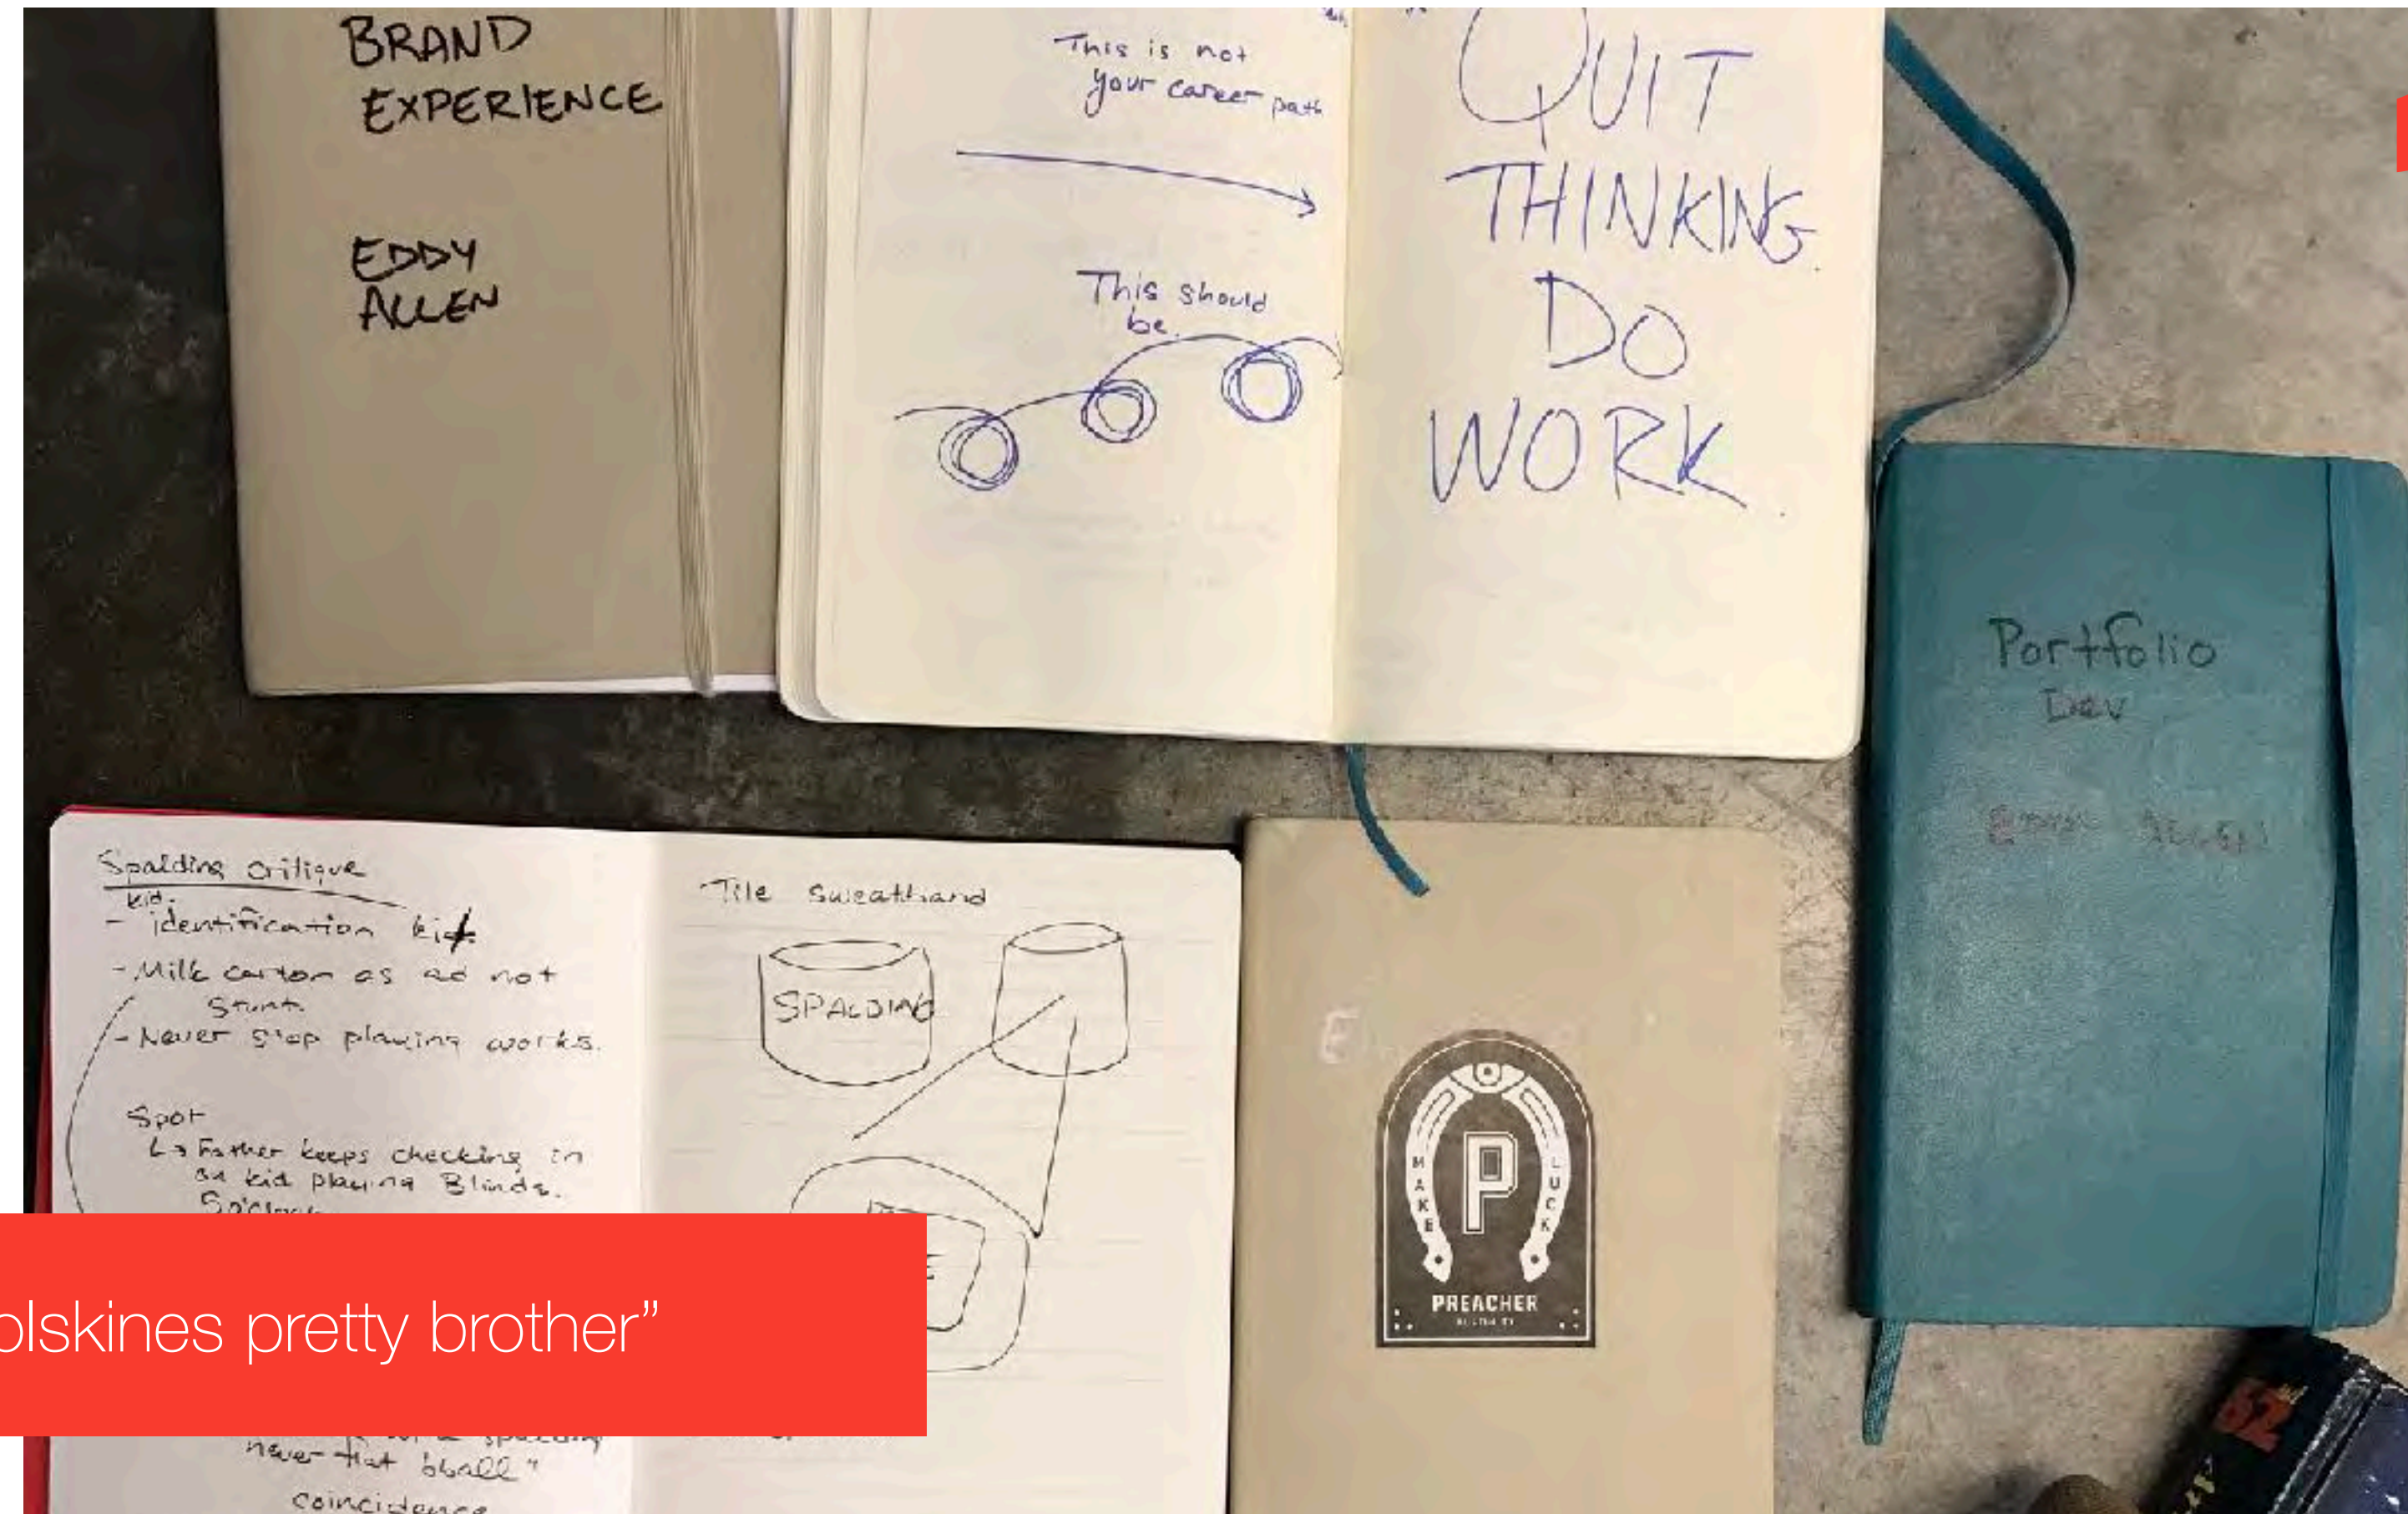

"I wish I knew about this notebook sooner."

## THE INSIGHT

Being a creative isn't a job title. It is about the output or thinking

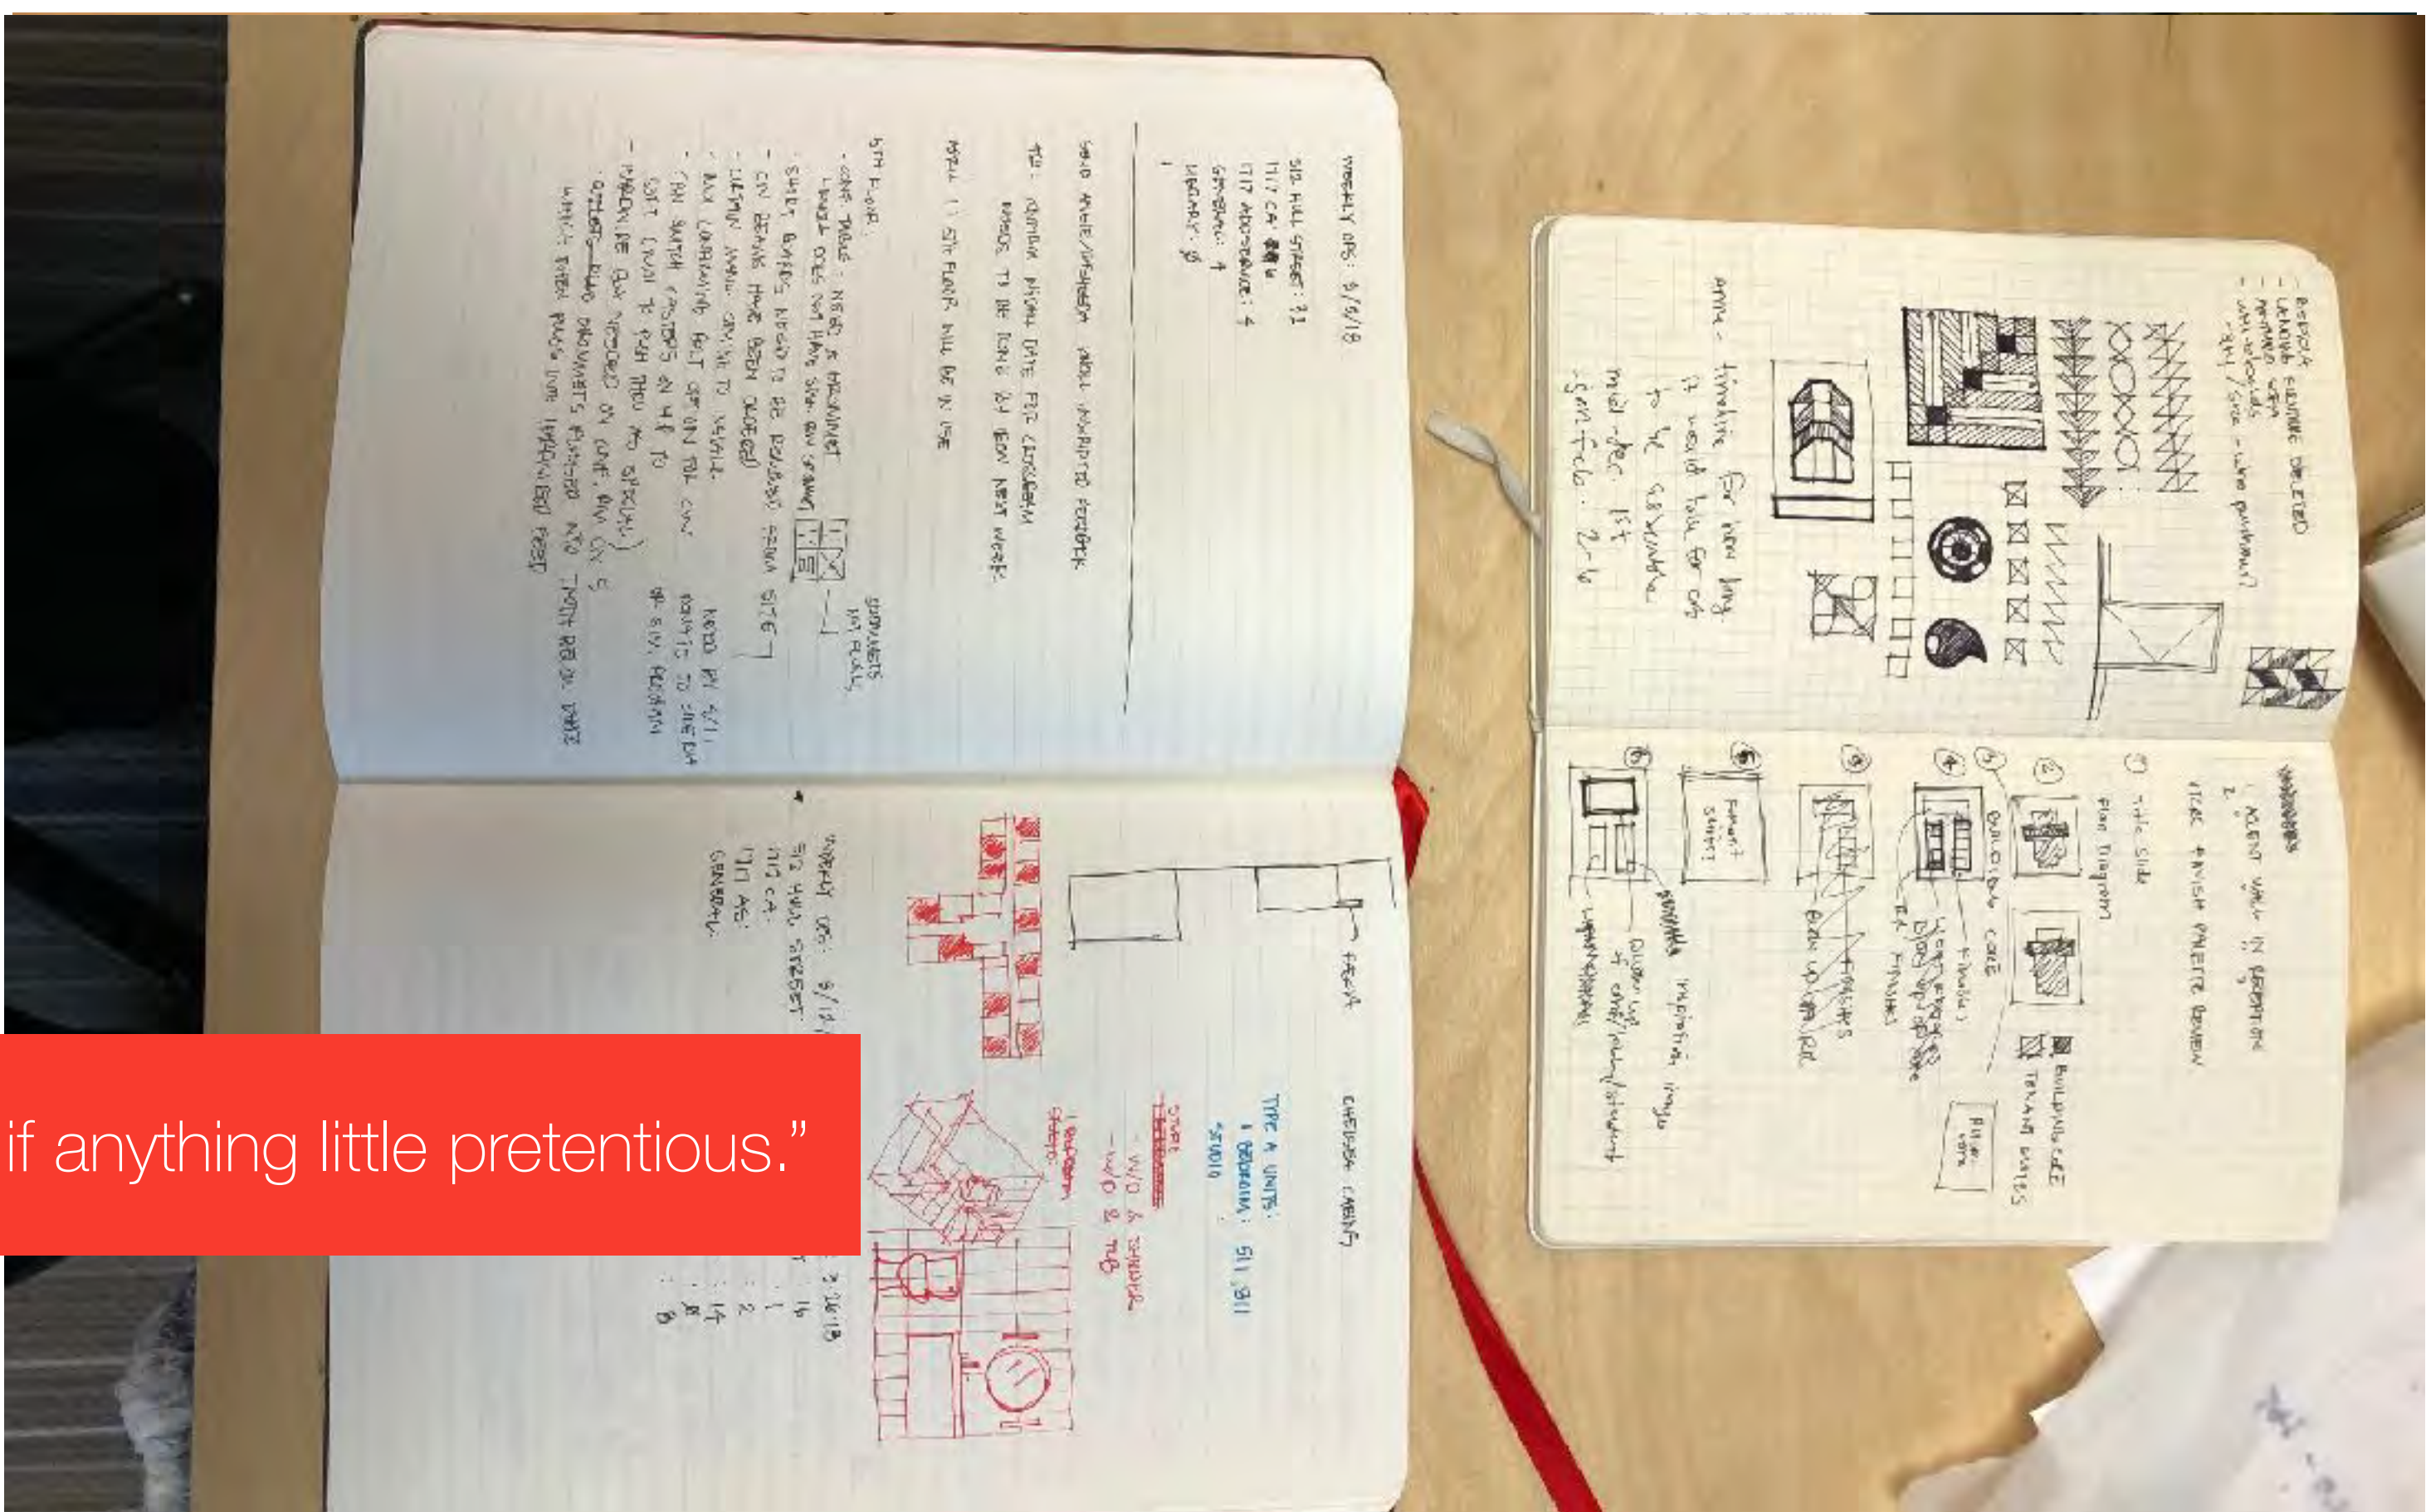

## THE IMPLICATION

Definite titles do not resonate with people. It is their thinking that does

"It means nothing.. if anything little pretentious."

“

“Love how they told the story,... I still have the package.”

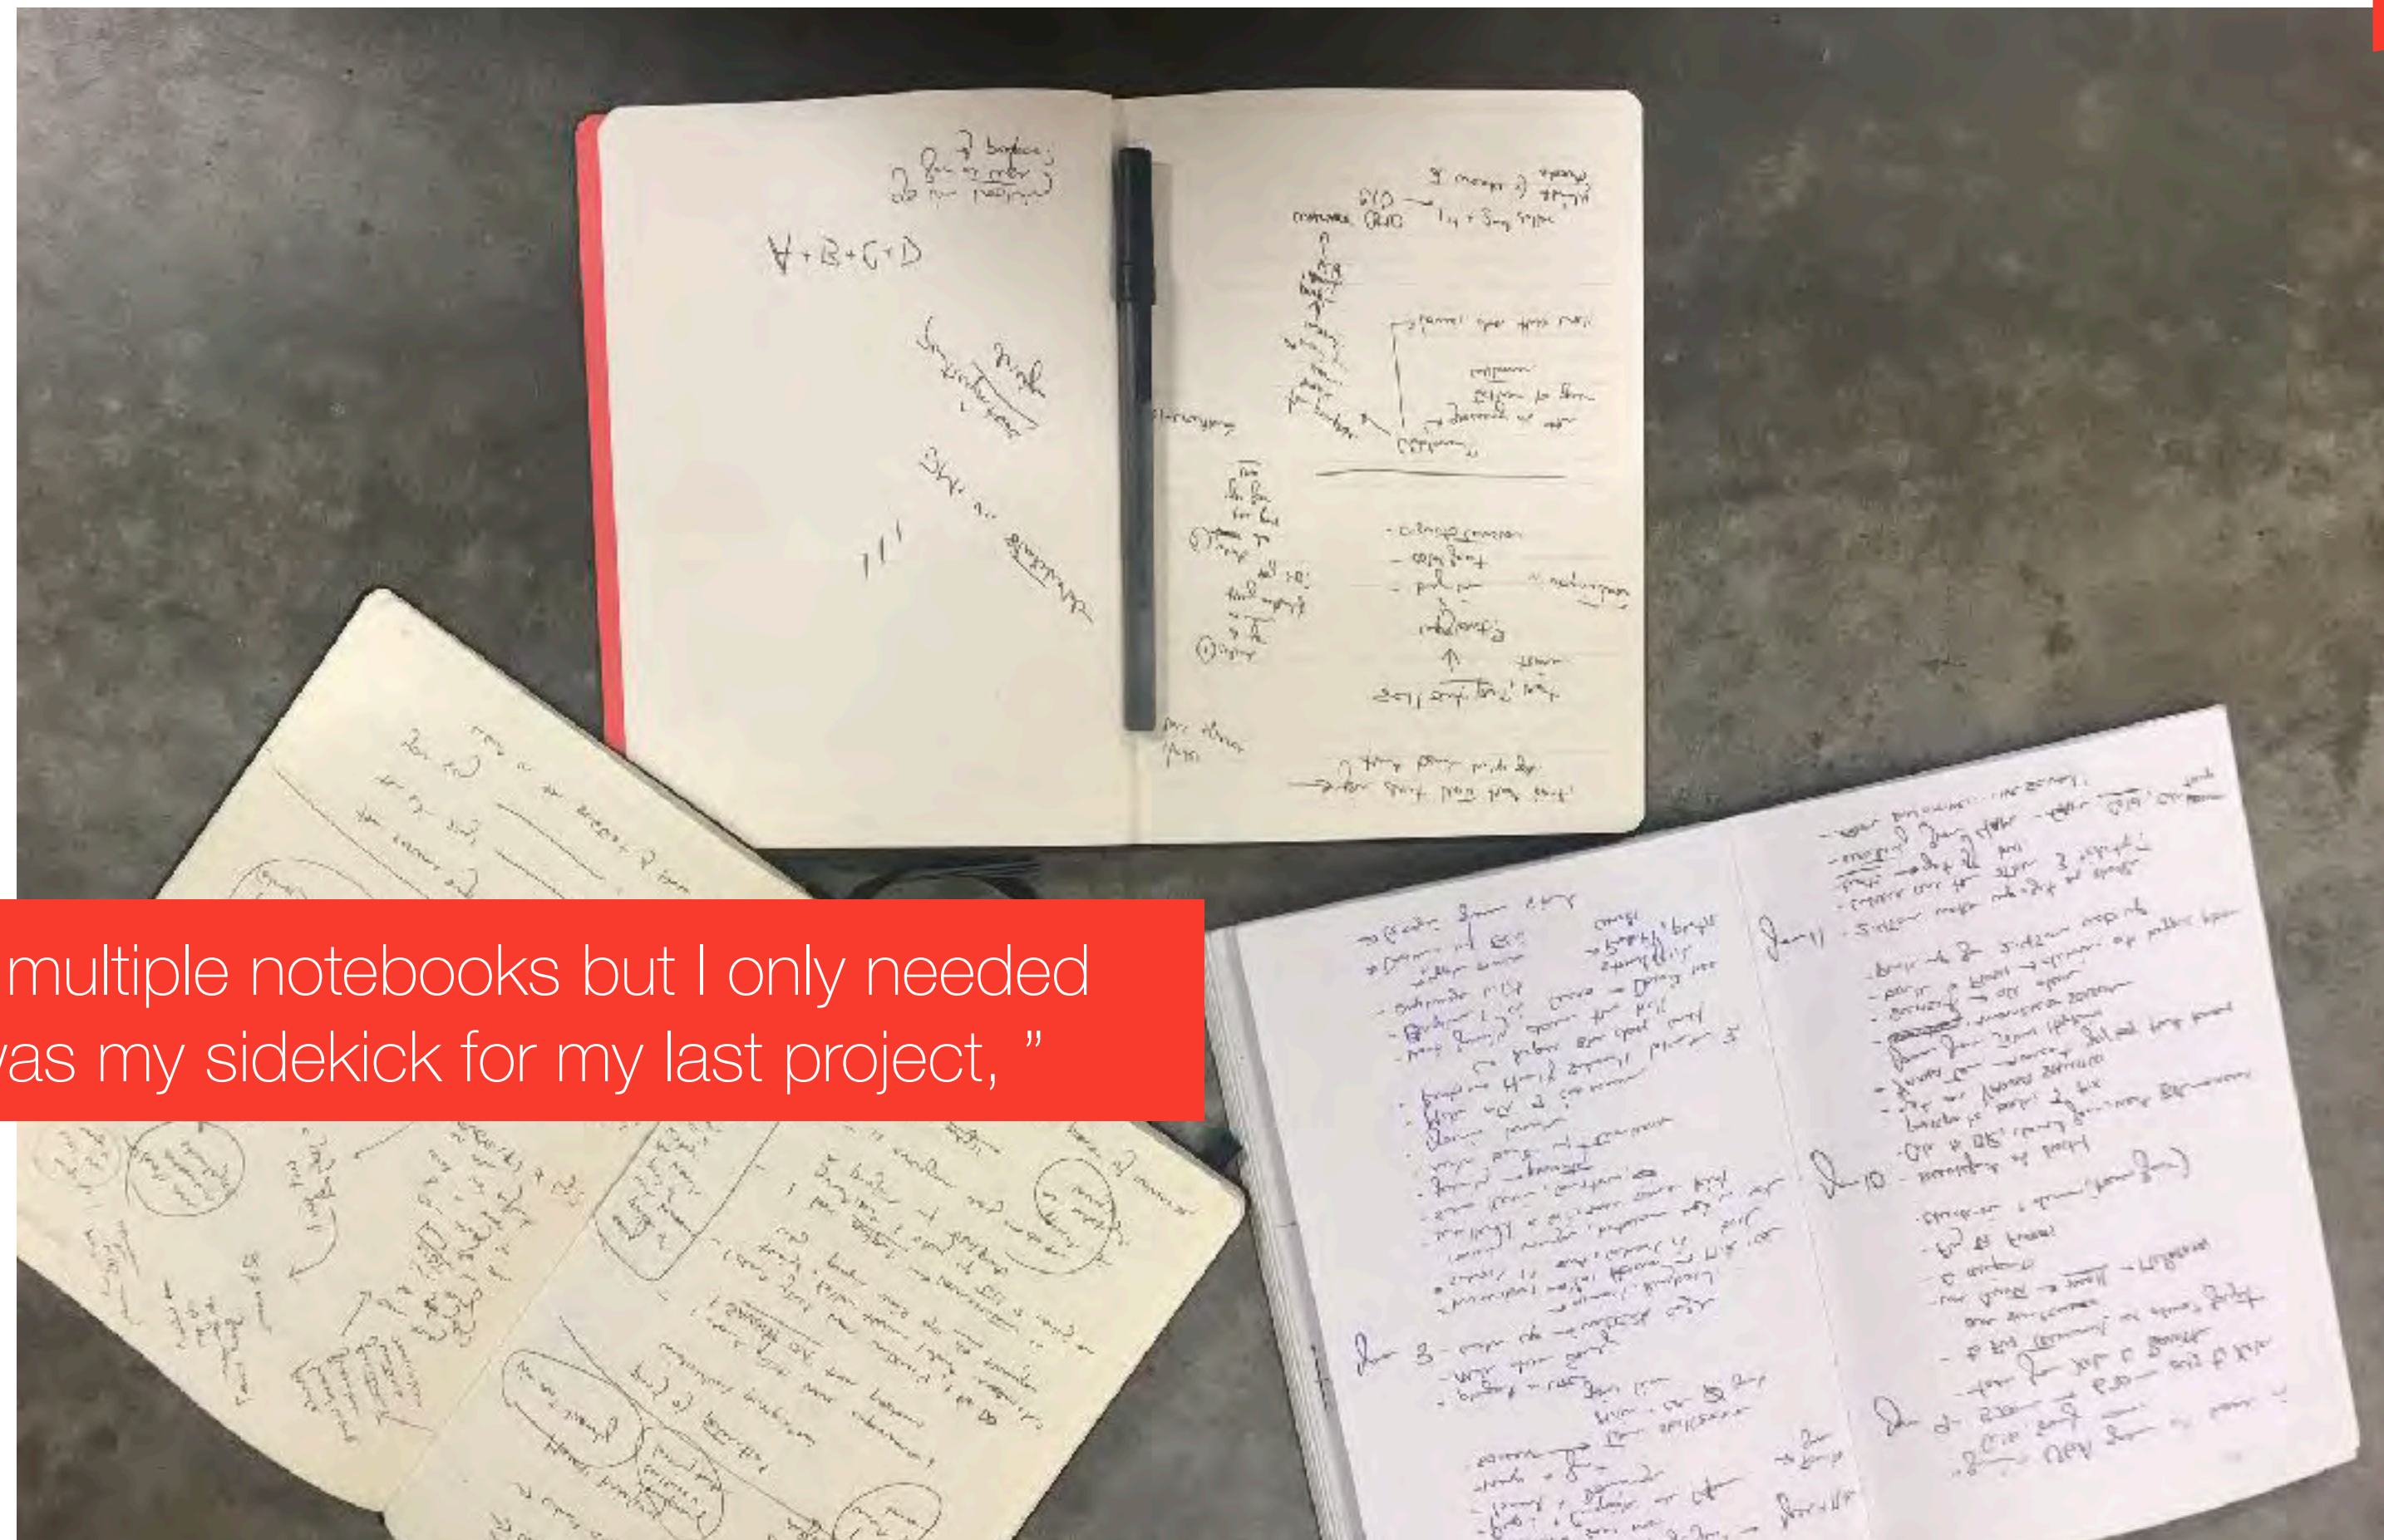

---

How do we stand out in the sea of sameness?

---

”

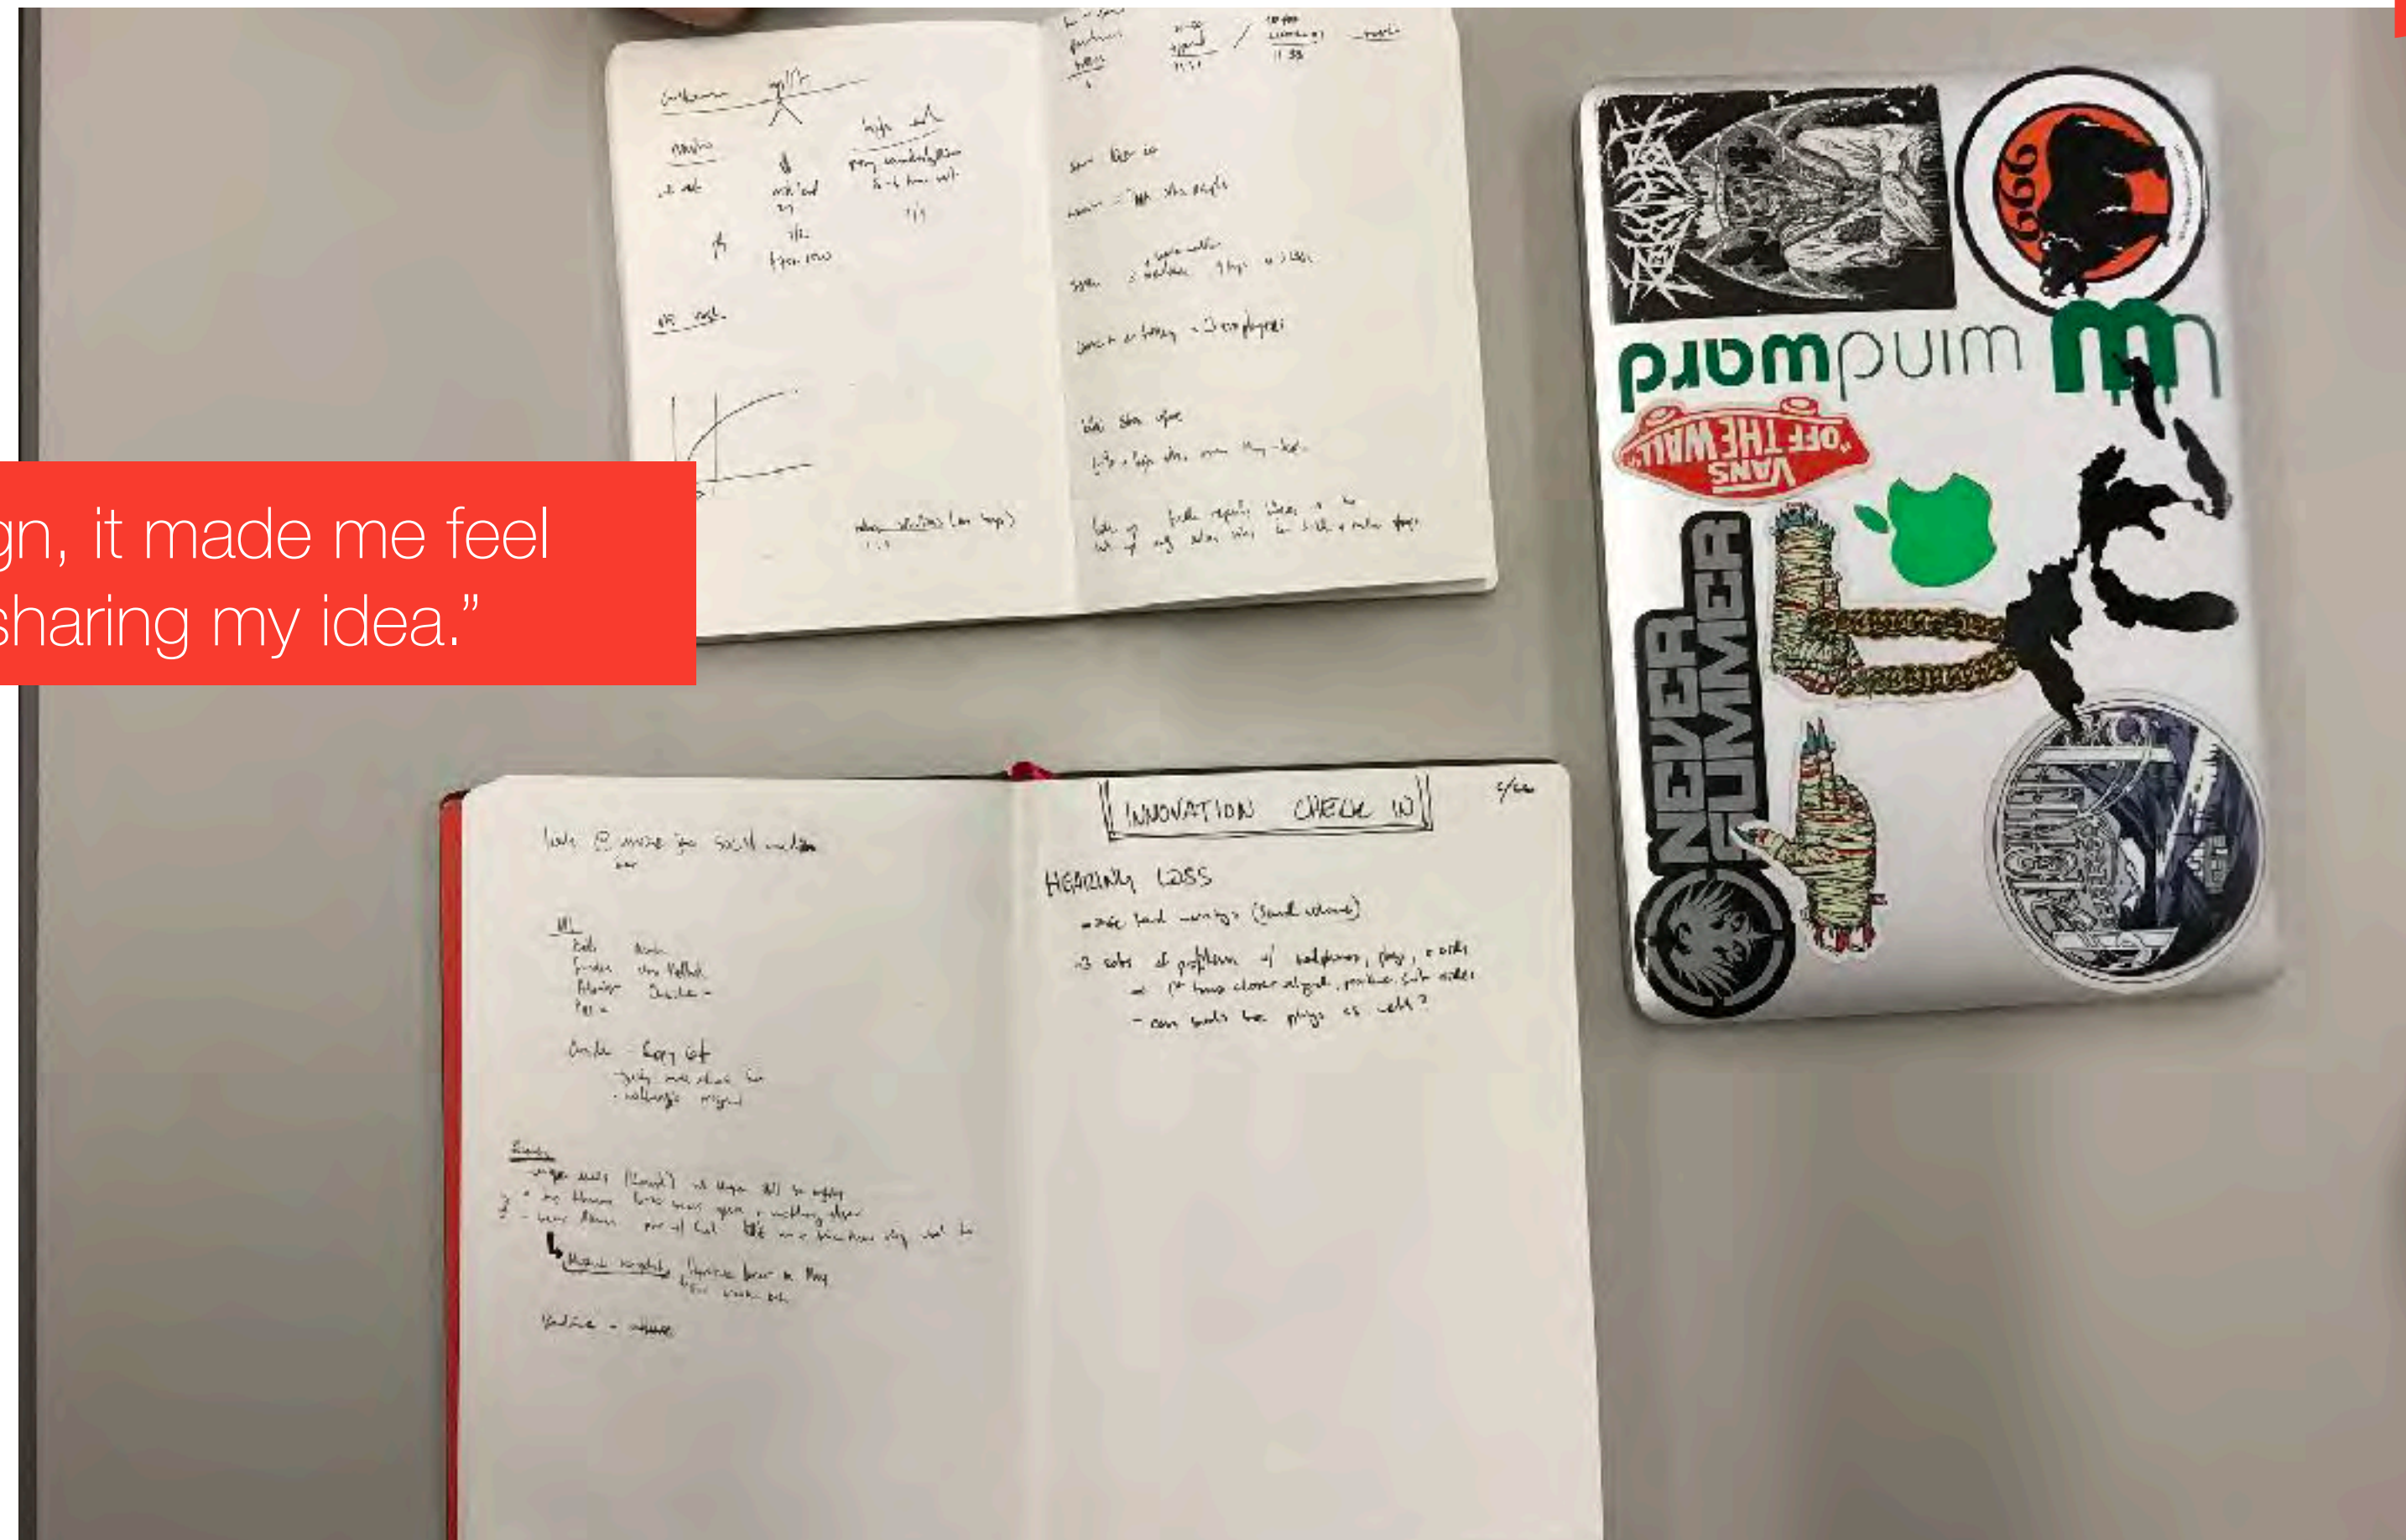

“ I usually use multiple notebooks but I only needed this one, it was my sidekick for my last project, ”

“

“I love the design, it made me feel confident in sharing my idea.”

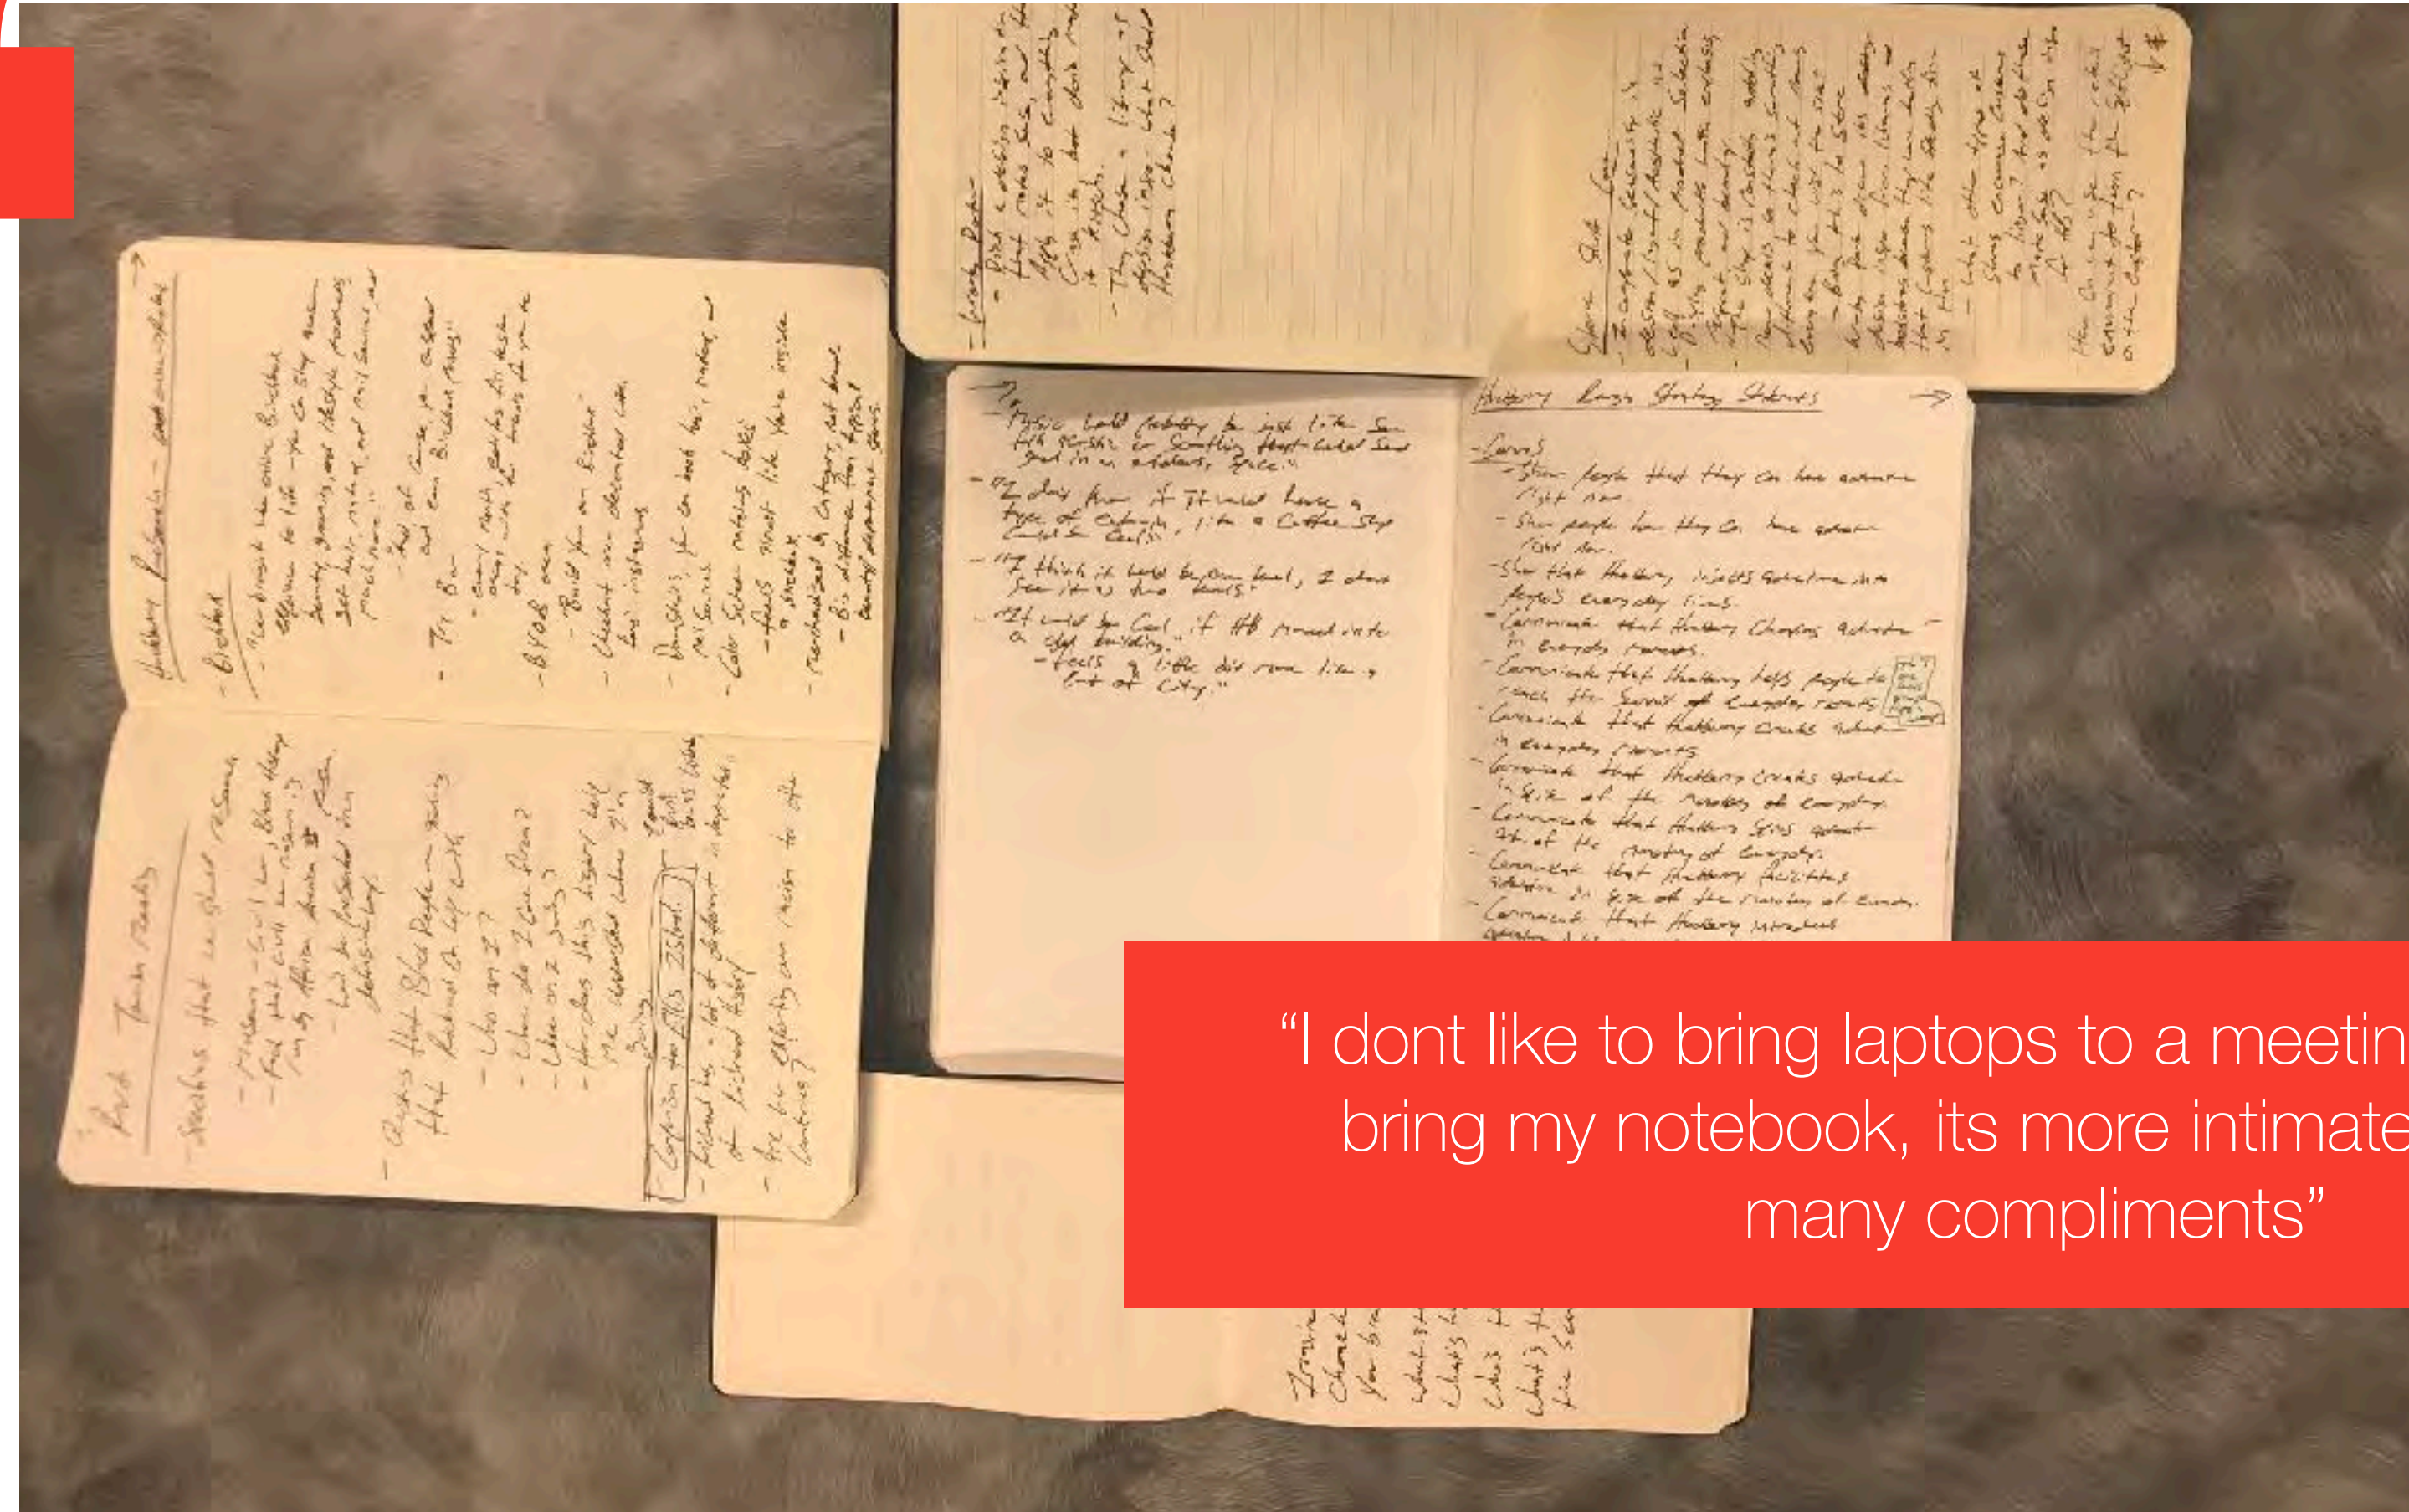

“

“ I have never used a notebook like this, I like to visualize my code, it was the different sides that made the difference

"I don't like to bring laptops to a meeting so I always bring my notebook, it's more intimate... I got so many compliments"

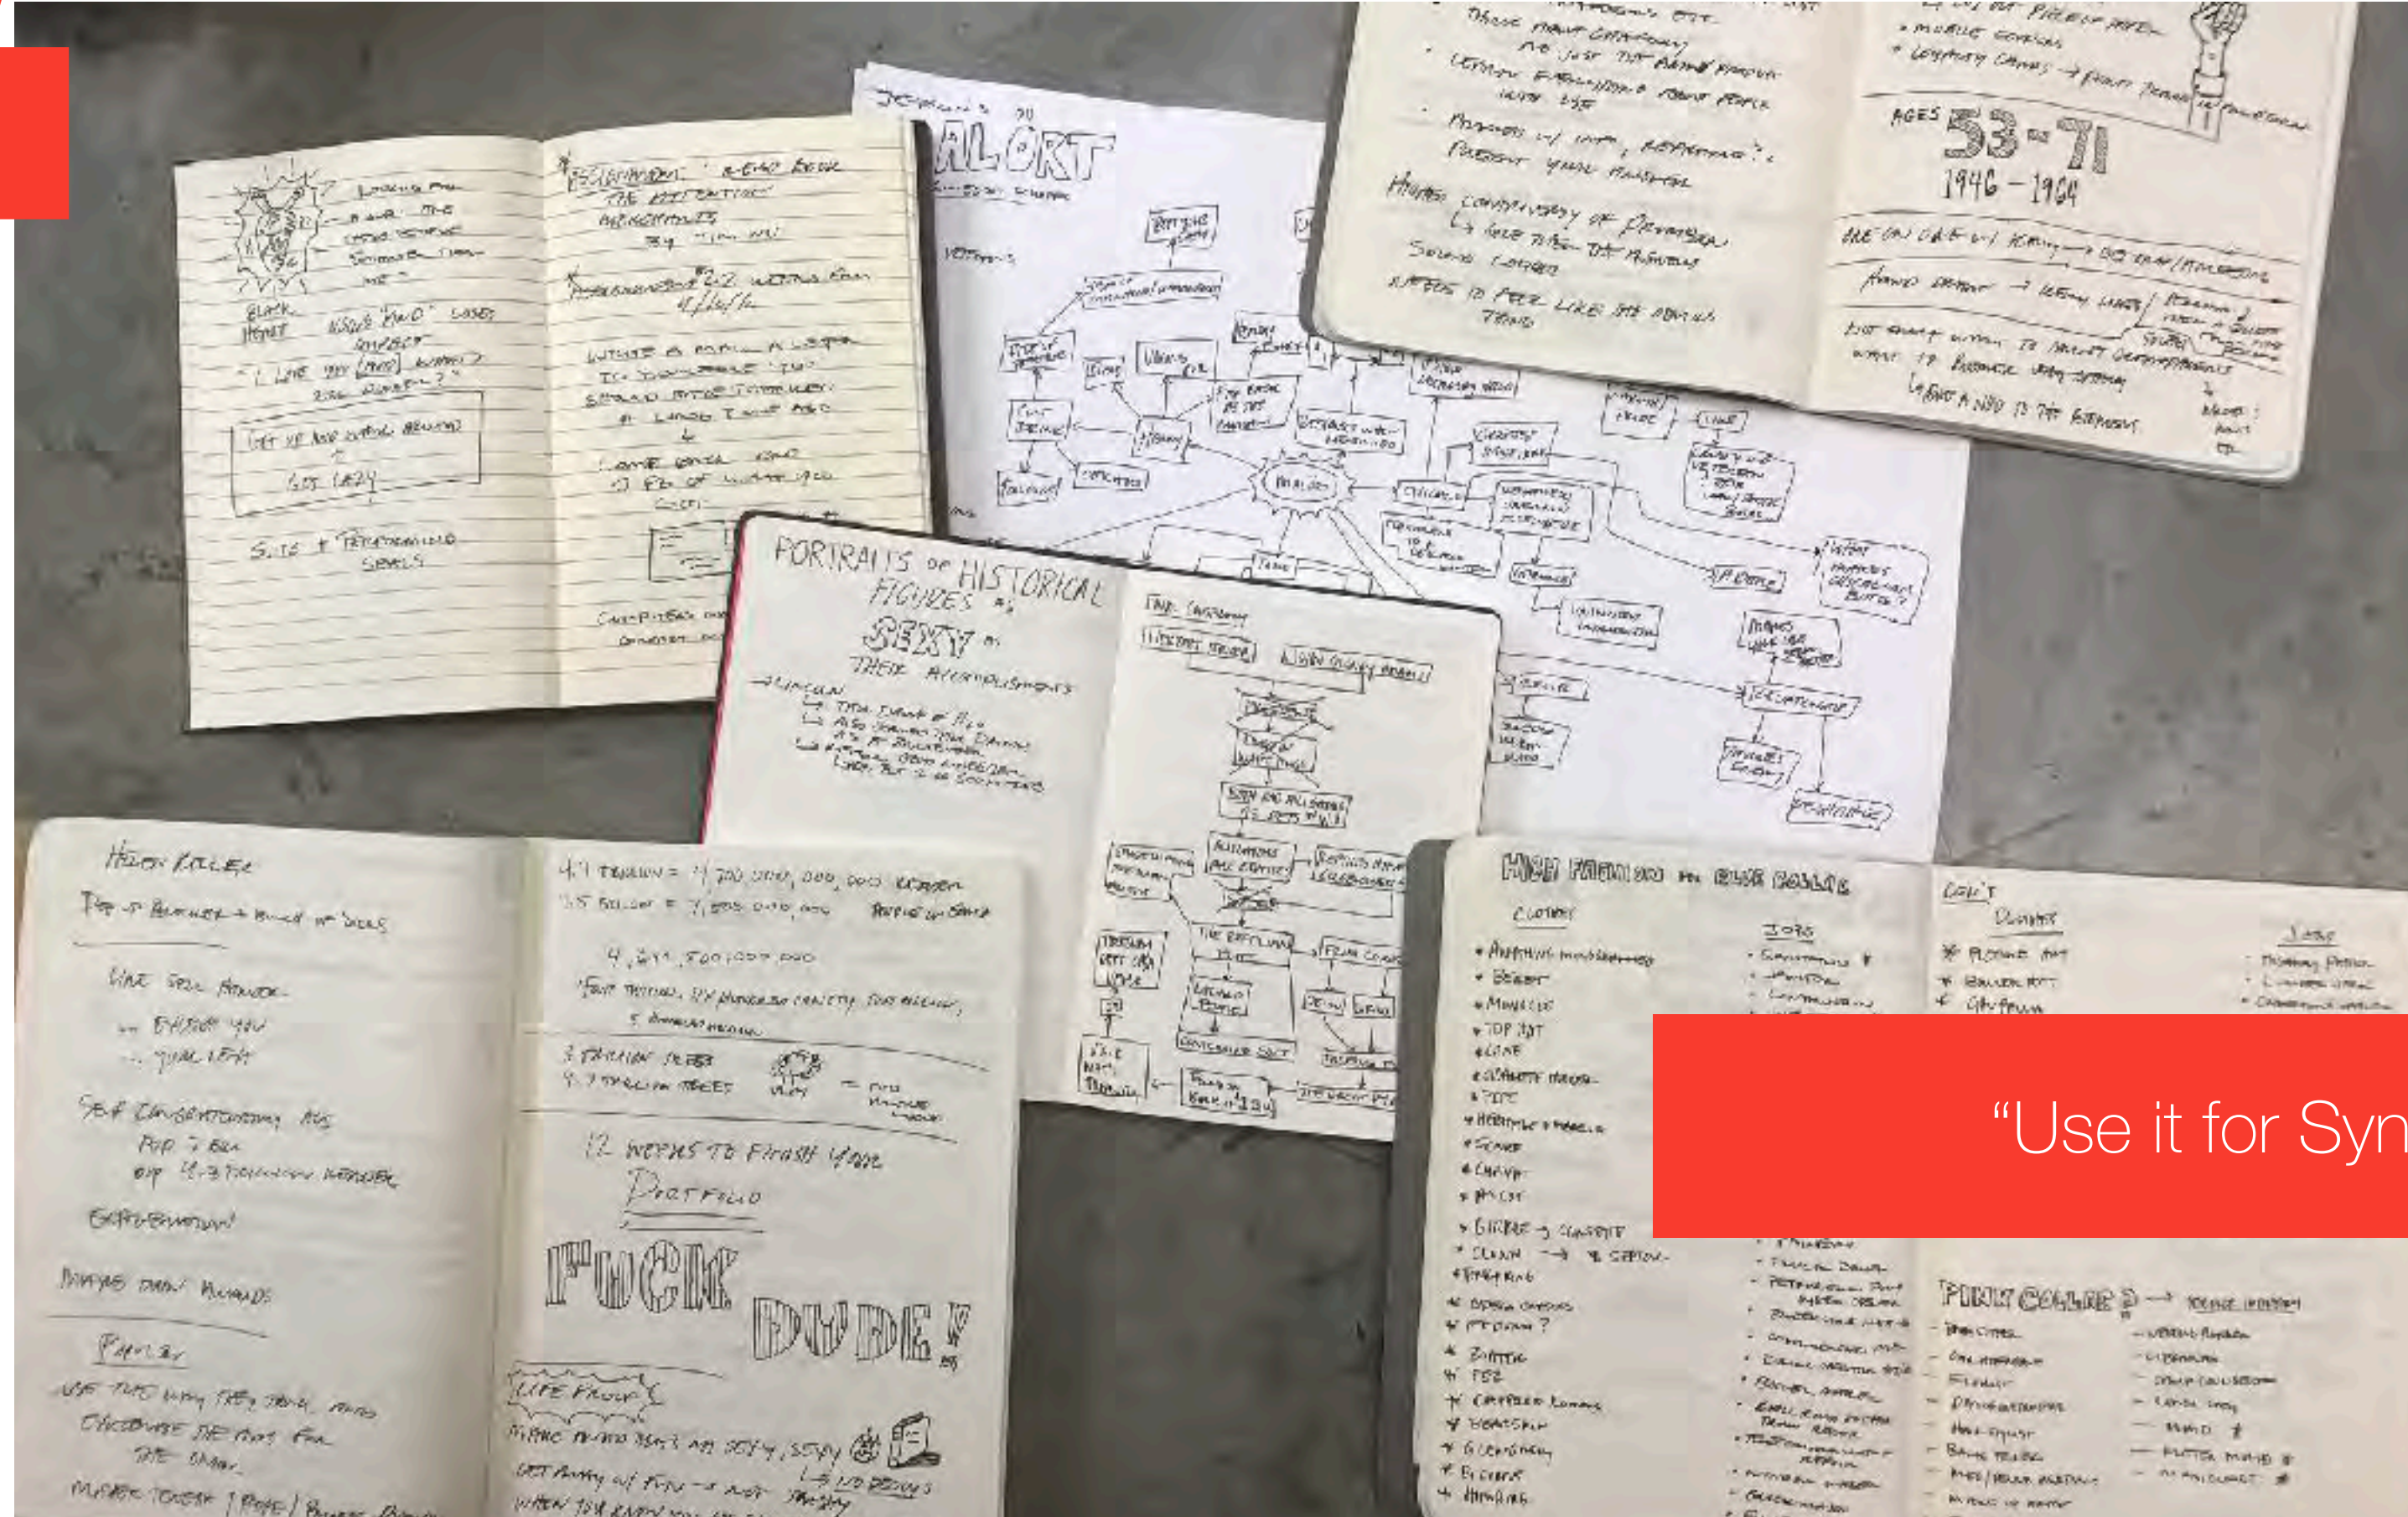

”

“I usually us blank but the layout made me want to do more, I started drafting and doodling.”

“Use it for Synthesis”

## THE INSIGHT

The design is topical but the way code and quill helps them think/ideation is what makes them fall in love with the brand

## THE IMPLICATION

code&quill is about the process, whatever the process may be.

## WHO ARE CREATIVES?

1678 is the first documentation of the use of the word as a noun. It has then been used, twisted and focused on being a word for one who is creative to on by 1938 was predominantly defined as one involved in the creation of outputs especially in advertising.

## ADOBE STUDY

## Define collective

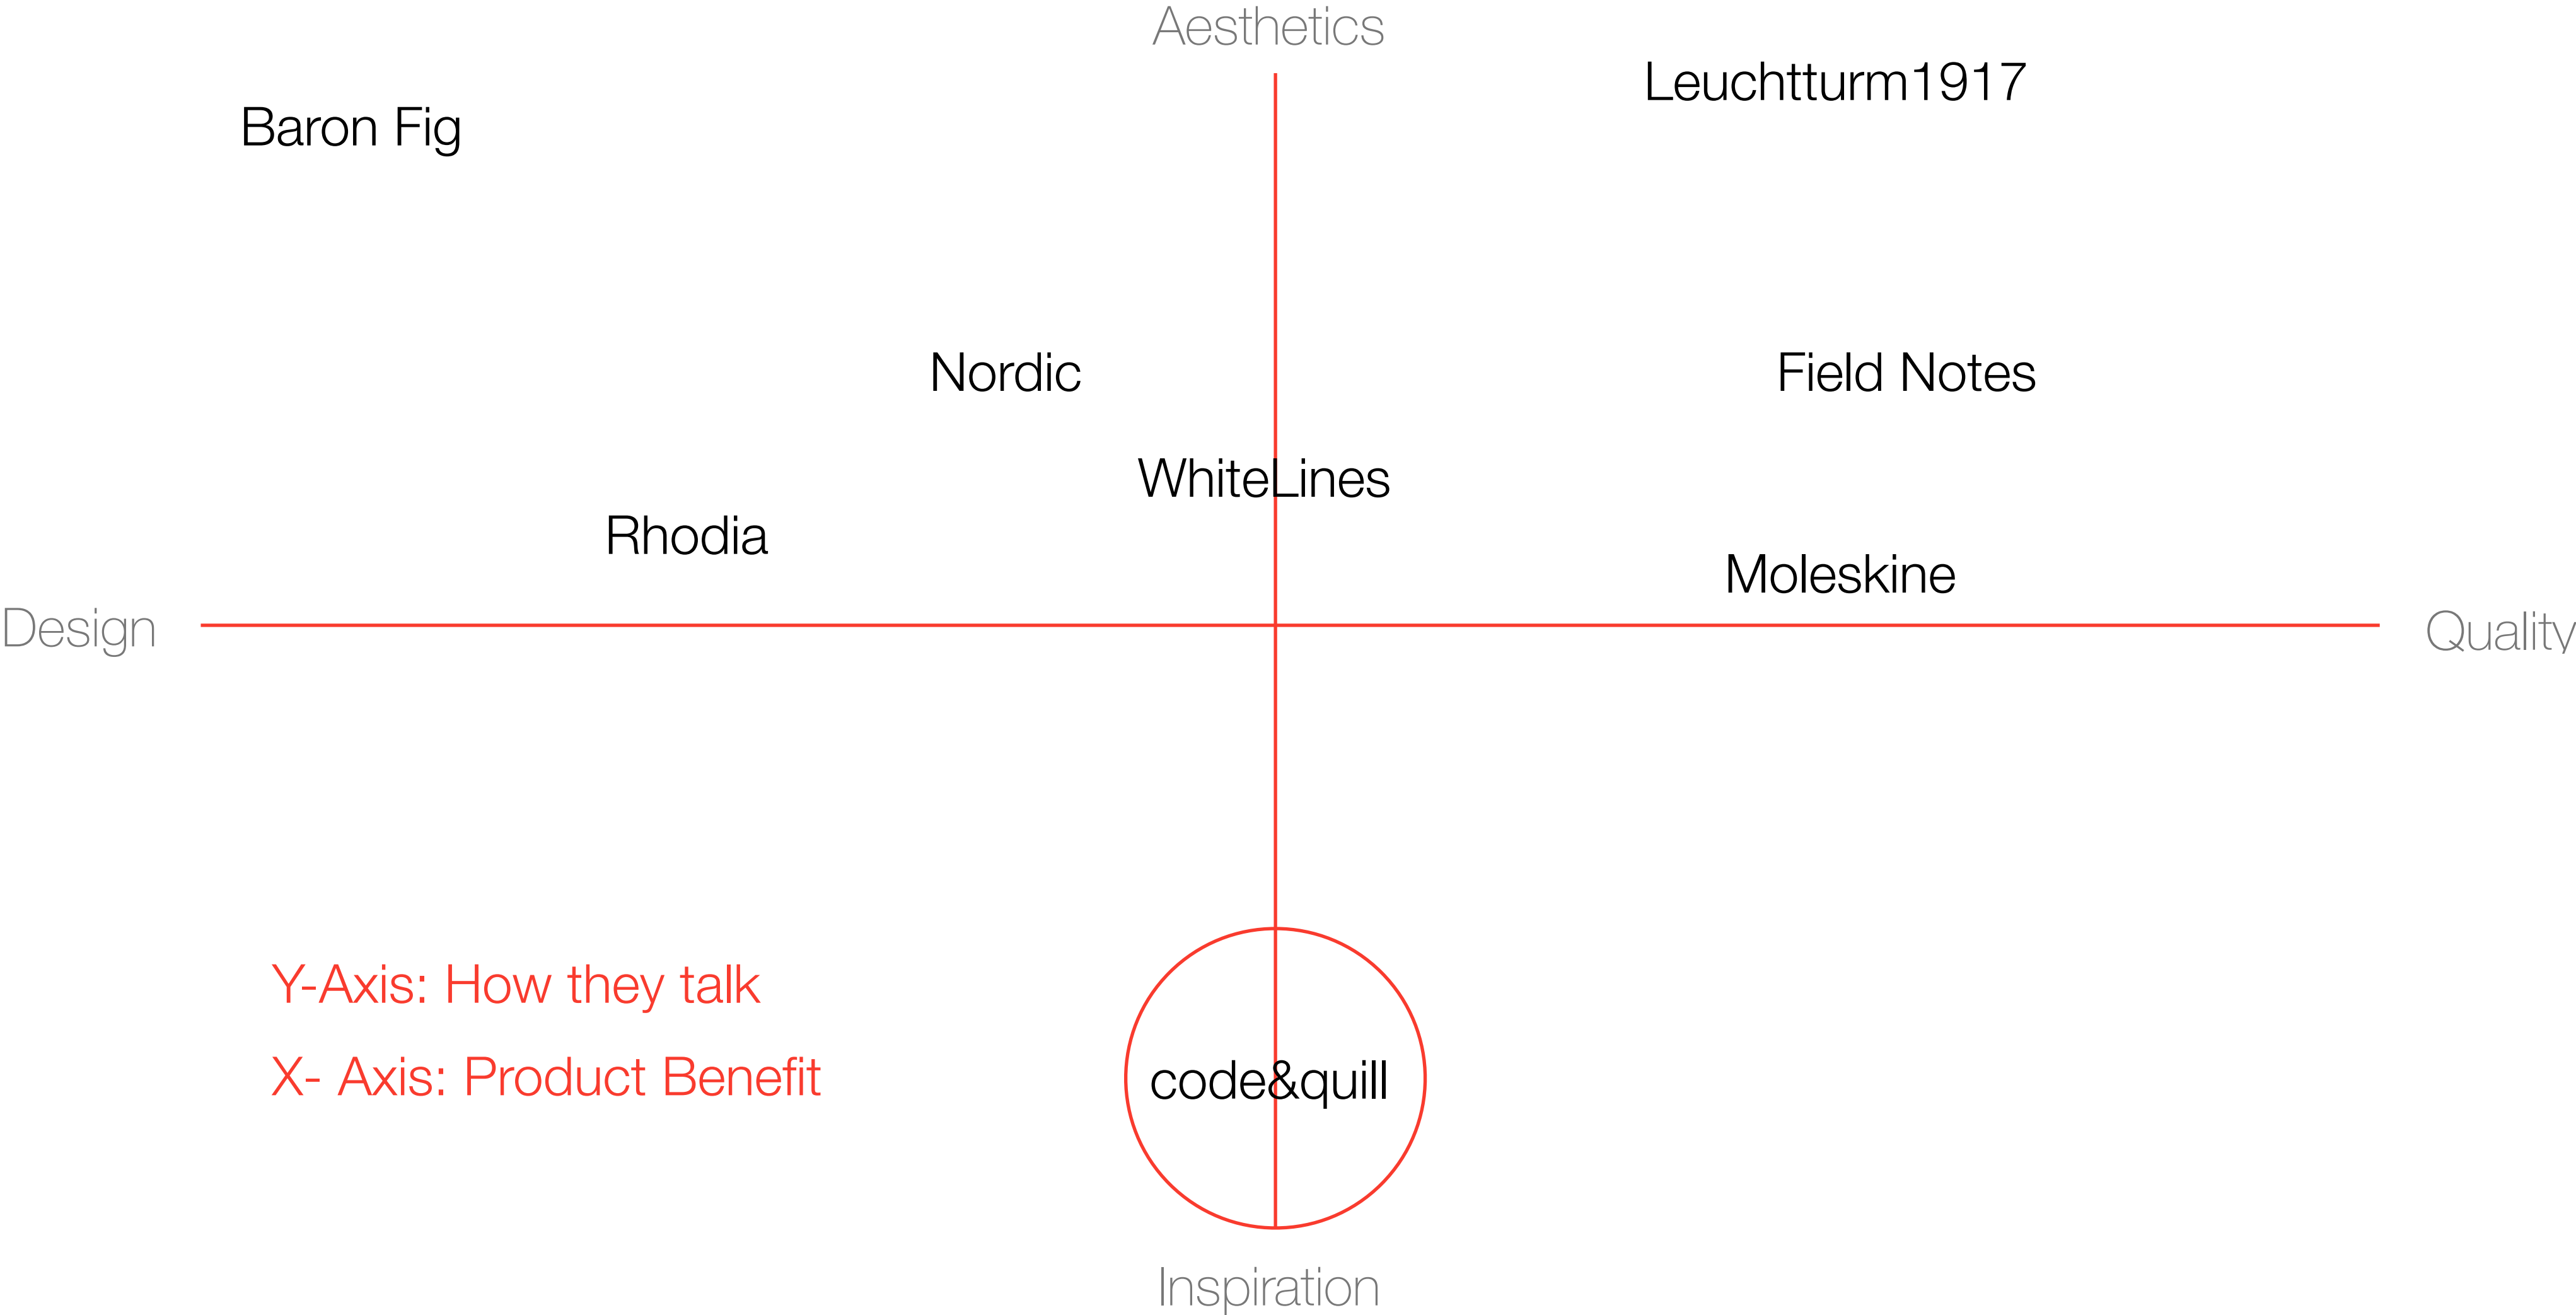

**shared or assumed mentality by all members of the group**

Creativity expresses itself in ideas, ideas that are jealously guarded and pampered. And its the energy and passion community of the mentors, thinkers, and do'ers, the Code and Quill Collective, that bring these ideas to life-It is the collection of people we celebrate and for whom our products are designed.

# Appendix

## BRAND TRUTH

code&quill helps the ideation process.

## CULTURE TRUTH

Creative people use notebooks as guides  
rather than a tool for ideation.

Paper is just paper, but when it come to  
function and design they want a brand that  
inspires them to keep going.

## HUMAN TRUTH

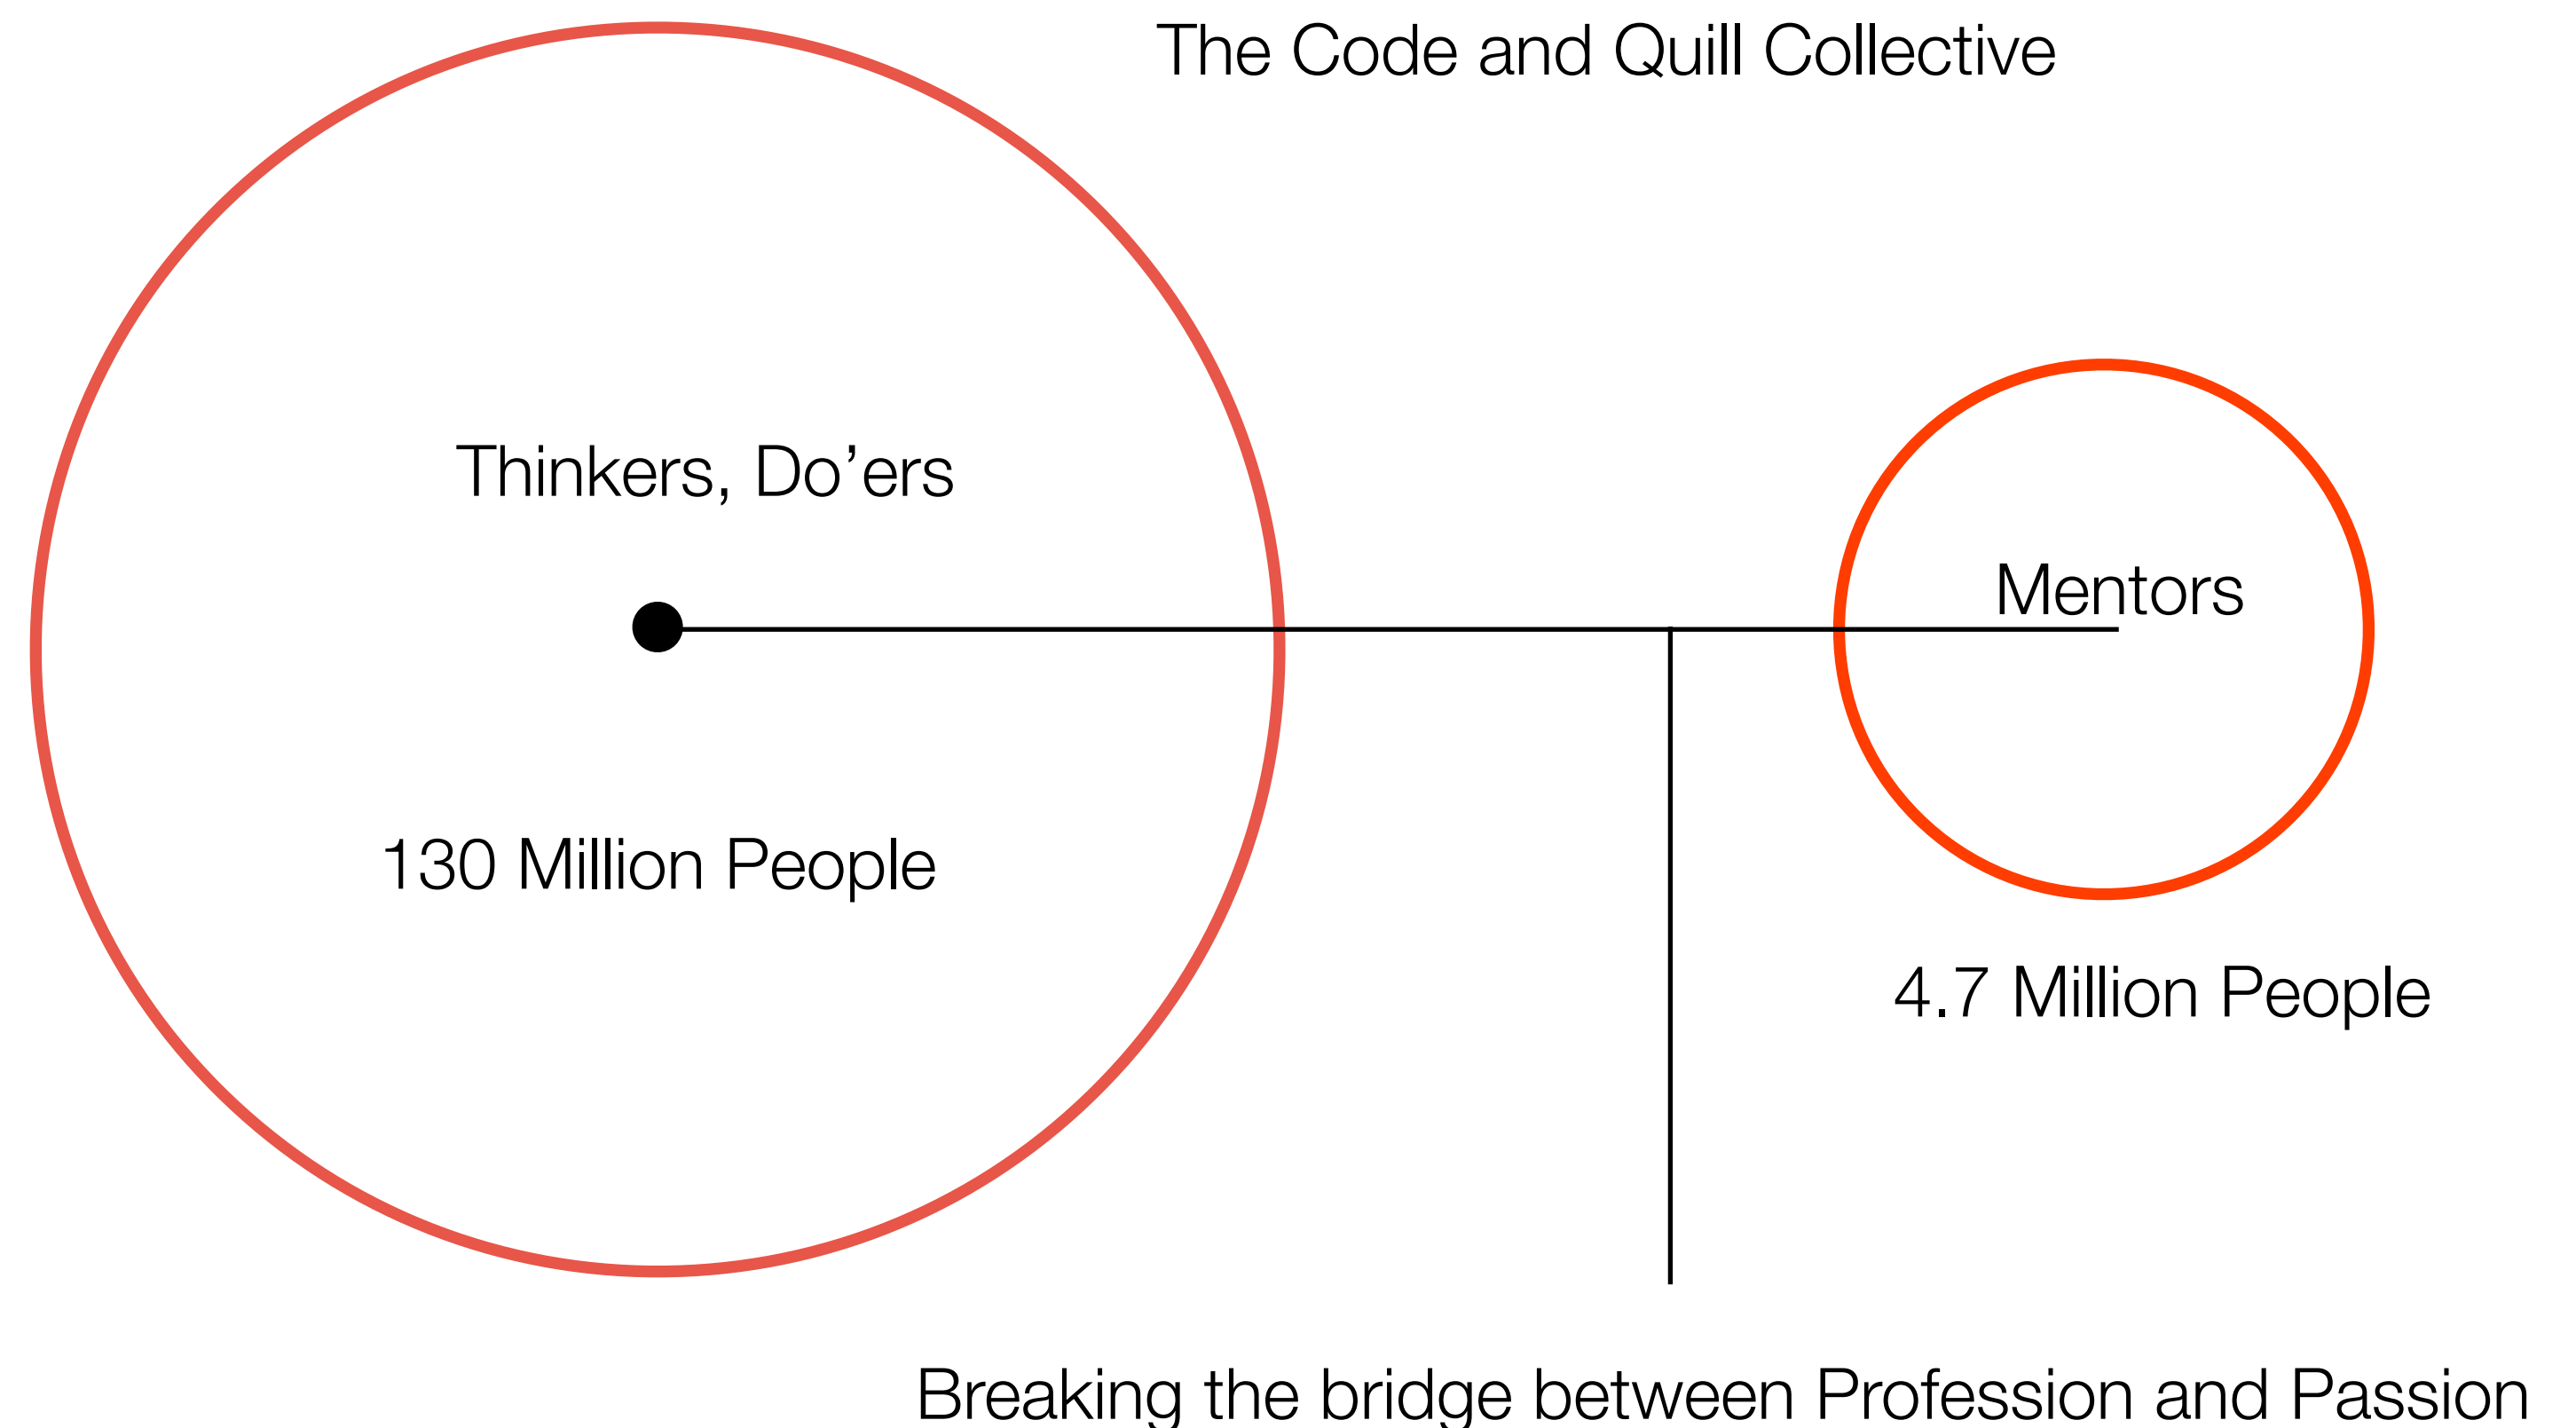

Everyone is in the playground of aesthetics  
and jumping on layers of creativity and  
design.

## COMPETITIVE TRUTH

## Target Audience User Habits

Early Adopters  
Tech Savvy  
Image Leaders  
Ethically Source  
Important to learn new things  
Extra Features are more important than original product  
My phone should help me get things done

MT		later half of the week.

## Micro-Influencers

Are a cost effective way that can increase sites on the brand but also creating relationships with other influencers that share the brands they love to work with.

## Medium Partnership

Creating a parallel with medium writers and their blogs on instagram can create a multiple channel effect that promotes your brand in an authentic way.

## Test Social

In rolling out the direction of powered by thought you would want to test the relevancy of the conversations you are having. A 3 month test could be beneficial in using the tags #codeandquillcreative and #shareanidea to gage success of both campaign and coupon.

Another Tag could be Find your & these could be showing different variations of processes to help be a guide for thought. It would inspire people to associate your brand with the new tag.

# Coupon Quick Stats

80% of millennials said they used coupon codes when shopping online (CouponFollow)

78% of millennials and 79% of affluent shoppers (\$100K+ household income) said they would use a featured coupon code from a print advertisement to buy online

79% of consumers say they normally use paper coupons

52% of the adult population will use digital coupons in 2017 (eMarketer)  
Digital coupon usage will grow just 3.8% in 2017

**67% of loyal customers will use/share a coupon**

# Breakdown

Last year you had sold 18,405 units of Code and Quill notebooks

The Average Revenue is in taking to account coupon cost would be \$18.20

Accounting for first the 79% of affluent buyers and then from that calculating the probability of loyal users at 67%

**Cost for a new customer is about \$3 including the coupon deduction and material**

**Potential Revenue based on last years numbers**

**Probability**

**Max growth of 37%    =\$224,430**

**Min growth of 22%    =\$130,356**

Enter Code:  
**SHAREANIDEA**

## Interviews

In selecting 30 people to talk about what creativity means to them I choose an array of job titles to see what are the key drivers in not only the title but in the output of what it means to be creative.

## Job Pool

From: Engineers, Developers, Artists, Graphic Artist, Writers, Authors, Musicians, Industrial Designers, Copywriters, Experience Designers, Business Designers, Strategist, Entrepreneurs.

## Interviews

People see themselves as creative but it is not something they boast about. It is because the process itself is inherently difficult to create. Being the brand that is the guide to succeed is a way in.

## Key Findings

52% of Americans view themselves as creative.

The creative sector is a total of almost 5 million people.

People love your product, every single person I spoke with said they would buy it again.

The design is unmatched, let the users be your cheerleaders so that you can focus on inspiration.

The title creatives is very layered in identifying a certain group. It would be wise to start phasing this verbiage out of the Code and Quill dialogue.

## Product Testing Feedback

### Aesthetics

Beautiful, Purpose Driven Design,  
Functional, High Quality.

These are all themes that came up when talking about the aesthetics of the notebook. While it is important to say that you have a beautifully crafted notebook. This layers into how having the right products makes your work better and also the user more confident.

Followed 12 “creatives” over the course of a month of using the product. The main goal of this test was to gauge what the emotional connection to a brand like code and quill could be. Also talking about what notebooks and tools mean to them when it comes to the ideation process.

### Function

It was for Syntheis, Concepting,  
Research, Ideation.

It was about how it helped them think, this notebook was designed for the best thinkers in mind. The root of all this is what thinkers have in common which is the idea. Focusing on creative process can pull better inspiration than the current scope of product benefit. Using this as a guide to show that Function and Design can live in tandem.
